ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: METHOD FOR DETECTING AND TYPING OF CUTANEOUS HPV AND PRIMERS AND PROBES FOR USE THEREIN

(57) Abstract: The present invention relates to a method for detecting and typing of human papillomavirus (HPV). In particular, the invention relates to a method for detecting and typing cutaneous HPVs of supergroup B and to primers and probes for use in a method of the invention. An important advantage of the present invention is that a large number of HPV types can be detected in a single assay, that it is applicable to fixed and poorly preserved material and that the detection method and typing method can be coupled.
